The crew of the Chinook that was a highlight of our 2x2 Event, has invited us to visit the Chinook hangar at the Selfridge AFB. This ground school will consist of:

- A presentation by the crew of a Selfridge-based Chinook to learn about this incredible aircraft and some of the missions the crew has flown.
- We will have another chance to look at, and in the huge helicopter.
- Take the opportunity for conversation with members of the crew.
- This is a regular operations night for the crew, so a take-off/landing may also occur.

The hangar visit is open to RCCD members and visitors with a limit of 40 people, on a first-come-first-served basis. So sign up early.

We will car-pool from the parking lot to the hangar. If you have a vehicle that can take 5 or more people please indicate if you are willing to drive and take others to the hangar. If so, at the base security gate you will need to show a valid driver's license, current vehicle insurance and vehicle registration. So have them available. These documents WILL be checked carefully.
